

Tiffany Tracey

November 30, 1979 - August 4, 2018

On November 30, 1979, the world was blessed with the birth of a sweet little baby girl named Tiffany Rachelle Charlayne Dwan Tracey.

Tiffany was a precocious child whom you could always find in the company of adults instead of children her age. She was inquisitive, eager, talented and had a mouthful of words. From an early age, Tiffany displayed a love for life. She was an avid reader and could always be seen with a book in hand,

As a child Tiffany had imaginary friends who went everywhere with her. She soon substituted them for real children and could be seen mothering and taking care of them. Tiffany was a no nonsense gal. She loved her family and friends dearly, but she would not be afraid to put them “in check” if she thought they were out of line. She loved to laugh and could make others laugh no matter the circumstances

As technology evolved so did Tiffany. She embraced computers, MP3 players, CD's, tablets, and most of all, the Smart phones which she used consistently by always taking selfies and going on snap chat with friends.

Tiffany started her education at Head School in Nashville Tennessee, did part of her elementary education in Ashford CT, before returning to the New Haven School System where she continued at Roberto Clemente Leadership Academy. She graduated from Sound School with honors, She then attended Atlantic Union College where she met and has maintained lifelong friendships. Later, She received her Bachelors of Arts in Psychology at Southern CT State University,

Tiffany worked for the New Haven School District as a Paraprofessional at Bishop Woods and was loved by those around her. She worked in a self contained autistic class before moving on to the lower classes like kindergarten and first grade,

Tiffany also loved music and could be heard singing everywhere she went. She rendered

her first solo at age 5. She took violin lessons at age 4, and piano lessons until she was 13, Tiffany was a pathfinder with Mount Zion guardian angels.

Her love for youth and young people could be seen by those around her. She started a singing group with children called "Totally for God". I'm sure most of them are present here today.

She volunteered for VBS, and a host of other events, she also directed and wrote many Christian plays and drama.

Tiffany enjoyed travel, photography and cooking. She was creative, very intelligent, witty, and had a keen sense of humor, along with an exquisite remarkable fashion style.

In January 2016, Tiffany was diagnosed with Acute Myeloid Leukemia, but this did not get her down. After receiving a transplant from her mom, Tiffany became cancer free, however, her body continued to fight various infections, and so she spend more time in the hospital than normal but she never gave up hope. She became an inspiration to those around her by bringing cheer to all who went to see her, and always gave Thanks and Praise to God. Often while visiting the clinic she would leave random notes of encouragement on cars.

On August 4, 2018, Tiffany closed her final chapter surrounded by family and friends. Although we miss her greatly, we have the assurance of knowing that Tiffany fell asleep in the lord and is now awaiting the trumpet of His Angels

Tiffany is predeceased by her grandfather Vincent Tracey who was a father to her, and her Aunt Careen.

She leaves to mourn, her dearest mother Dr Donna (John), Grandma, Aunts Marcia, Yvonne (Fata), Yvonne(Jethro), Marlene, Sherry, Judith(Donovan) Uncles: Pastor Donavan, (Dr Iline) Rudy, (Pam), Bob (Vermaline)Trevor, Errol, Her best buds. " Kari, Letisha, Nikki, Roshan, Johnese, Leeza (aka Kookee), Angie and Kai,"along with Vincent, Phillip, Diamond, Nadesia, Dillian, Ryan, Nadine, Rashid, Jamal and a host of other relatives and friends too numerous to mention.

Tiffany we love you, we will miss you dearly and we will always cherish all those loving memories of you.

Comments

“ Tiffany was a gifted, intelligent and witty coworker with a meticulous work ethic. She always had me in stitches and amazed me with her creativity. She was her happiest when she could use her artistic abilities to bulletin boards, transform cardboard boxes into elaborate stage sets, weave stories for screenplays and direct movies and plays. We was a wonder and the children loved her!

May your entire family stay courageous, strong and hold on tightly to the resurrection hope. Jesus told those who did not believe in the resurrection that his Father is the God not of the dead, but of the living. Tiffany is very much alive in our Grand Creator's eyes. I look forward to welcoming her back in the new world to come.

Deepest Sympathies,

Bobbi Lawrence
Bishop Woods
