“ *Ms. Barbara came to me a little over a year ago and instantly we hit it off and became very close. She was an important part of my life, she gave me the best advice and even spoke to my son often which would always make her day...I know they say you're not supposed to get attached to your patients but when you take care of someone so special how can you not become attached??...SIP Ms Barbara I love you & miss you so much ... you will forever be in my heart... love your Puerto Rican sister (as she called me) 🙏❤️ #mylady*
