In Loving Memory of Jason George Mack

November 29th, 1984 –August 16th, 2025

With profound sadness, we announce the passing of Jason George Mack, a devoted father, loving brother, cherished fiancé, and loyal friend. Born on November 29, 1984, Jason was a man whose heart and spirit touched everyone around him. He passed away surrounded by love, leaving behind a legacy of strength, laughter, and unwavering dedication to his family.

Jason was the beloved son of the late Timothy Mack Sr. and Debra A. Mack, whose memory he honored every day. He was the proud father of two daughters, Jada Mack and Alani D. Mack, who were his greatest joy and deepest purpose. Jason's love for his girls was boundless—he was their rock, their guide, and their biggest supporter.

He is survived by his fiancé, Danielle McCormick, whose love and partnership brought him peace and happiness. Jason also leaves behind his four brothers: Tyrone Ogletree, Timothy Mack Jr. (Jamar Floyd), Tyreese Mack, and Justin Mack, along with his nieces and nephew, all of whom he loved fiercely and protected with all his heart.

Jason will also be deeply missed by his aunts, uncles, and cousins, who knew him as a source of joy, laughter, and unwavering support. His extended family was an important part of his life, and he cherished every moment spent with them.

Jason was the backbone of his family, the one who held everyone together

through life's challenges. He was known for his infectious laugh, his ability to bring joy to any room, and his tireless work ethic. Jason was dependable, loyal, and full of heart—always showing up when it mattered most.

He lived life with joy and purpose, never missing a moment to celebrate, uplift, or simply enjoying the company of those he loved. His legacy is one of love, laughter, and strength, a legacy that will live on in the hearts of all who knew him.

Please contact the family directly for information regarding the Repass address.

Rest in peace, Jason. You were truly one of a kind, and your love will live on forever.
