“ I would like to give the family a very special condolence from the heart. You have lost such a very special person to me. I just wish that I could of at least said a couple of things to him before he left, but I guess thats why you should tell a person how you feel because you never know. I wish the family the best and regardless of what Keron did he was a blessing in disguise. If there is anything I can do or if you ever need to just talk, or just cry please contact me. Please I just want to be there for his family because he was there for me.
