“ *Aunty you were loved by many and loved even more by family this just still seems so unreal. My heart feels like it's coming apart by the seams. Lord knows Im gonma miss you soo mich. REST IN PARADISE*

Denise AkaGoddess - August 23, 2019 at 06:02 PM

“ *My Dear Linda. Just joked with you on Facebook. You were one of my first co workers at YNHH. You always had me rolling on laughter. You always shared your wisdom. I and this world will truly miss your light.*

Karen Knight - August 23, 2019 at 02:16 PM

“Miss Linda, we started working together on the night shift. What a blast! We were coworkers and friends.

I will never forget all of the stories about your life. I laughed and cried with you. The only girl in the family with all of those brothers. The way you spoke so fondly of your father and how much you were loved by him and protected by all of your brothers. It made me long for a father like that. How you helped care for your Mother and visited her all of the time. Some stories about her were so funny.

You spoke about your children and grandchildren often. Brandon and Jason, she was extremely proud of you.

Lindasha, I know how proud of you your grandmother is! She shared all of your accomplishments with us and we kind of watched you grow up without actually meeting you. Keep up the great work, she is watching over you.

You made everyone around you feel cared for by always asking about our families and caring about health concerns of family members. I would tell my Mom how you always asked about her.

We spent 12 years together in the Lab and I still quote things from our time together. I remember the time someone told me that you pulled the shower cord and got soaked when you were supposed to check the eyewash station. Every now and then I will say “Remember when Miss Linda did/said this...”

Every morning, we all remember you saying “I’m hungry!!” or “I’m cold”. We always laughed because it was daily.

Or when you wanted your break but didn’t want to go to the break room. You would sit at your workstation in the lab and remind everyone that you are on break!

I’m sure all of us have specific memories.

I hope you rest in peace my Linda, knowing that all of us miss you and love you. ❤️
