“ My prayers are with the family and friends of Troy F. Perry Myself and Troy Dated back in high school although it was for a short period of time Troy made an impact on my life he was sweet,caring,and a kind person who always expressed his feelings. Although it has been almost 12 years since we had that relationship Troy has never forgotten about me I am more than happy to say that. We last spoke on April 30,2010 for 14minutes and everytime he called my phone he would say Karissa this Troy call me when you get this message I Love You. He called me through out the month of March 2010 until April 6,2010. I last saw him at Yale New Haven Hospital in the emergency department. Troy I will live with the memories that we share forever and I will also have to live with the fact that I was not there when you needed me it hurts my heart to the point where I have to grasp for air I know now why you always told me that you loved me and I know now how to trust and believe when others express how they to others you have done more than express your feelings to me you have shown me that you meant how you feel. To the family I know that Troy is with us in spirit I know it please stay strong no matter what if there is anything you need or anything I could do to help you in anyway please contact me.
