“ *Sending my heartfelt condolences to the Godfrey family. Vanessa, there's so much about you I'm going to miss....your laugh and sense of humor, your way with words, your generosity and more. You also taught me (and still teaching me) a thing or two about friendship. Thank you. Rest In Peace.*

“ *To know Vanessa was to love Vanessa. We've been friends for almost 40 years. We've had conversations that no one will ever about, she was a true friend and Sister. If I needed anything from her she was always there , and the same way with me .If she needed something She could get it. Vanessa was the only person that I trusted to watch my kid when they were younger. I'm truly going to miss my friend and Sister from another mother. Love you Vanessa, I'll see you later.*
